SUMMARY

Hey, I'm Saravana, a passionate Computer Science graduate aspiring to kickstart my career as a MERN Stack Developer. Excited about coding, creating, and contributing to meaningful projects. Let's build something awesome together!

WORK EXPERIENCE

projects

1. Inventory Management System
 - Developed a comprehensive Inventory Management System using the MERN stack.
 - Allows users to efficiently track, add, and update products with secure authentication.
2. Real-Time Chat Application
 - Built a dynamic real-time chat application with Socket.io, powered by the MERN stack.
 - Users can seamlessly join custom chat rooms with a full-stack implementation using React.js, Node.js, and MongoDB.
3. Notes Application
 - Designed and implemented a user-friendly Notes application using the MERN stack.
 - Features include creating, editing, and deleting notes to enhance productivity.
4. Password Recovery System
 - Implemented a secure Password Recovery System as part of user account management within the MERN stack.
